DIVIDENDS

s to whether the dividends from he plantations will be affected by the introduction of European labor on the plantations owing to the increased wages which will be paid. Some of the large plantations which employ from two thousand to three thousand laborers will find a maerial increase in their monthly payroll unless the new labor is efficient enough to offset this. An increase of five dollars per month in wages to the laborers will mean, on a plantation employing twenty-five hundred men, an annual outlay in excess of the present expenditure, of one hundred and fifty thousand dollars. Contracts may be made which perhaps would offset this. At all events the chances are that the dividends will be affected. On the other hand the new laborers will place their savings locally, and nothing will appeal to them so much as a good investment in real estate. OLAA'S CROP TO RUN 19,400 TONS

False Rumor Men Start \$100,000,000 subject to be called in. The Liabilities of the Company on Yarn Against Plantation

Hammers have been out among some of the stock traders and the latest swat has been taken at Olan, with the rumor that the crop now coming off will run considerably short of the estimate.

This rumor is without truth, as evil rumors usually are. The Olan crop will run 19,400 tons this year, and it will all be taken off within the next few weeks. The manager's estimate for the season was 20,000 but naturally he could not foresee the cold, wet weather of the spring that reduced the sugar content of all the cane along the Hilo coast. Olan is in first class physical ecudition and it is evident that someone is at work trying to scare out the timid ones to make a turn and a profit.

The market was not very active to day although quite a number of sales were reported between boards. Al though the price of sugar has reached four cents this is the season when the buying crowd is out for a summer trip. Consequently the Stock Exchange will probably take a vacation itself next week, Waialna shaded down a little to \$98.50 and even as low as \$98 bid, but there will be no holding this stock once it strikes its
